

Privacy and cookie statement & disclaimer

In this document the usage of data and the data processing by Meester Dennis will be specified. Additionally, the policy of Meester Dennis regarding purchases, user rights and user files will be explained and Meester Dennis will distance itself from sharing user data to third parties.

Latest change: 22-05-2018

1. Legal notice

The website and all applications issued under the name of Meester Dennis are property of Dennis van Duin, residing in Haastrecht, the Netherlands. Meester Dennis is registered with the Dutch “Kamer van Koophandel” under the number: 67619363 and can be contacted using the contact form.

The website meesterdennis.nl and its aliases have been set up to inform users and to support teachers at their daily work. On the website one can find all applications as well as several digibord tools which can be used to support the lessons in class. Illegal use of the applications of Meester Dennis, or violation of this policy, could result in the obligation to file a declaration.

2. Terms of use

Entrance, usage and navigation on Meester Dennis’s website means that the user is aware of and meets the legal notice, accepts the privacy policy as shown on the website and accepts the cookie-message. In case the user does not agree with any of the criteria mentioned above, it is advisable not to make use of the website and products of Meester Dennis.

The website and its content and all applications are owned by Dennis van Duin and are protected by copyright. The images, programs, ideas and other materials which have been created by, or are made on behalf of Meester Dennis may not be copied, reproduced or sold by another individual. Users may cite to the website of Meester Dennis. In case the user wants to use the materials created by Meester Dennis, the user must have had personal contact with Meester Dennis, have asked for permission and must have received permission from Meester Dennis on paper.

All information in the privacy policy of Meester Dennis is kept up to date as much as possible. Whenever the privacy policy is updated or changed, Meester Dennis will inform its users immediately by a Twitter message and a Facebook message. For this reason, Meester Dennis is not responsible for any information which has been changed, nor information which does not come from Meester Dennis nor information which is portrayed or sent by third parties outside the scope of this website. In case any ambiguities arise, please contact us using the contact form.

3. Purchases and products

At Meester Dennis it is possible to purchase several products, download various applications for free and download other material from the website of Meester Dennis. The applications can be purchased or downloaded from the Google Play Store (from now on called “Android” and the Apple App Store (“iOS”). Other materials can be found on the website or can be developed in the user’s assignment.

3.1 Applications free of charge

All applications free of charge created, produced and developed by Meester Dennis can be downloaded on Android or iOS. In most free applications an advertisement banner will be shown. This banner is shown by the integration of Google Admob (see chapter 5.2). Meester Dennis will ensure all advertisements are child-friendly by disabling all disturbing, unwanted advertisements which contain content for children for aged twelve and above. Only in this way, Meester Dennis can ensure children can enjoy engaging with the applications in a safe way. When one experiences or comes across an advertisement which the user considers inappropriate, offensive or not child-friendly, the user may contact Meester Dennis using the contact form.

3.2 Paid applications

Aside the offering of applications free of charge, it is also possible for the user to purchase applications for Android or iOS. These applications can be bought from the Google Play Store and the Apple App Store respectively. The purchase and payment details are fully taken care of by the corresponding service where the application is downloaded from. More information on the purchase policy from iOS ([click here](#)) or Android ([click here](#)) can be found on their websites.

Since the purchase is fully taken care of by Apple or Android, it is impossible to return money the user payed for an application. When the user is unsatisfied with a purchase, the user can contact Android or iOS. These organisations will take care of the cashback, and is necessary will ensure the applications can still be downloaded.

In the source file of all paid applications an extension is available for showing advertisements in the application, but will never be used in the paid version of the application. The source file contains this extension because both free and paid versions are originally created using the source files, and therefore both contain the same extensions.

3.3 In-App purchases

The applications created by Meester Dennis do not contain any In-App purchases. Whenever the user comes across applications which are published or are issued under the name of Meester Dennis and contain In-App purchases, the user must contact Meester Dennis immediately via the contact form. This application will be created, designed nor published by Meester Dennis.

3.4 Downloads

On the website of Meester Dennis several files can be downloaded. These links use Google Analytics to count the number of downloads of a certain file. More information about Google Analytics and the data concerned can be found in chapter 5.1. Downloadable files on the website of Meester Dennis are property of Meester Dennis and may never be sold and may only be shared indirectly with a reference to the website of Meester Dennis. See chapter 2 for more information.

3.5 Your product

Users can submit an idea or wish to Meester Dennis. Meester Dennis will contact the user and will, in consultation with the user, create a plan for the application or website on paper and send this to the user by email. During the preparation Meester Dennis and the user stay in touch about the application, its abilities and its price. After acceptance of the plan, Meester Dennis will sent the final pricing to the user which has to be returned by the user

within 30 working days. After acceptance, the application will be developed by Meester Dennis and will be published in a test phase invisible for the public. The user can test the application and report all improvements to Meester Dennis after which Meester Dennis will continue to develop the application or website until both entities are fully satisfied. Then the application will be published officially on all agreed platforms. After this is done, Meester Dennis will sent the pricing to the user. The user has to pay the pricing within 14 working days. In case the user does not pay in time, legal action may be taken against the user.

4. Personal data

In this section will explain in which ways the applications of Meester Dennis will gather, analyse, save and use personal data. Aside from this, the website of Meester Dennis also analyses information about the visitors and the user-friendliness of the website.

4.1 What data does Meester Dennis collect?

Meester Dennis collects several types of data to ensure the user-friendliness of the website. The application of Meester Dennis will never save or share any information.

Meester Dennis collect user information on its website using Google Analytics. Google Analytics keeps track of the number of visits of a specific page, the target audience and visits per country . These data are not used to create any profile at all from a visitor of the website, and will never be shared either. More information in chapter 5.1.

We collect the following data when you send us a message using the contact form:

- First and last name
- Email address
- Other personal data which the user supplies to Meester Dennis using the contact form

Google Analytics collects the following data on behalf of Meester Dennis:

- General geographic location
- Visits of particular pages on the website
- Internet browser used and device used (Windows, Mac, Android, iOS, etc.)

4.2 Users aged under 16

Our website and other services never intend to collect or analyse data from users aged below 16, unless they have asked for explicit permission from their parents or caretakers. Meester Dennis cannot verify this in an online service which is freely accessible. Meester Dennis strongly encourages parents or caretakers to be involved in the online activities of their children to prevent children sharing data without parental permission.

In case the user means Meester Dennis collected personal data of users aged below 16 years, please contact Meester Dennis as soon as possible using the contact form and Meester Dennis will delete the collected data within thirty working days.

4.3 Why does Meester Dennis collect data?

Meester Dennis collects data for the following purposes.

1. To improve the user-friendliness of the website. By investigation specific details of the website's traffic, among which devices, browsers and how the website is used, we try to improve the user-friendliness of the website. For more information, see chapter 5.2.

2. Meester Dennis collects data via the contact form. The data is not saved, but directly sent to our email address. Meester Dennis collects the user's name, mail address and message in order to respond to the user's question as well as possible. The emails received from the website will be stored on Meester Dennis's Gmail address and the website email address.

4.4 How long does Meester Dennis keep the data?

All data collected by Meester Dennis will be stored for at most a year. Emails will be deleted automatically one year after the email was sent. Aside from that, Meester Dennis will try to delete its emails and the user's personal data whenever correspondence with the user has ended.

Data collected and stored by Google on behalf of Meester Dennis will be stored for unlimited time. The user is entitled to look into, change or delete this data. The user can do this on its own by visiting <https://adssettings.google.com/authenticated> or <https://takeout.google.com>.

4.5 Sharing data

Meester Dennis will never share, sell or distribute personal data of users with other parties. Data collected using the contact form will only remain in Meester Dennis's mailboxes. Data collected by Google on behalf of Meester Dennis can only be shown to Meester Dennis and will not be shown or sold to any other parties.

4.6 Data leak

The moment personal data of users or other information owned by Meester Dennis is stolen or is obtained in an unlawful manner, Meester Dennis will as soon as possible take legal notice to the Dutch "Autoriteit Persoonsgegevens" (<https://autoriteitpersoonsgegevens.nl>).

5. Google services

Meester Dennis makes use of several Google services. These services are used to show friendly and suitable advertisements in applications or to analyse website traffic.

5.1 Google Analytics

Meester Dennis makes use of Google Analytics to analyse the traffic on the website. On the website, a cookie is placed by the American company Google as part of their Analytics service. Meester Dennis uses this service to investigate how the user-friendliness of the website can be improved and to gain inside into the use of the website.

Google might share this information to third parties in case Google is obliged by law or any governmental organisation, or third parties processes this data on Google's behalf. Meester Dennis has no influence at all on this policy. Meester Dennis accepted the Terms and Conditions of Google's services, which is obligatory to make use of their services. However, Meester Dennis switched off all available settings for sharing information with third parties.

Moreover, Meester Dennis has signed a processor agreement with Google. All information collected by Google will be anonymised as much as possible. The user's IP address is masked. More information about Google Analytics and the data they collect can be found here: <https://policies.google.com/privacy?hl=nl>

All information will be deleted after 26 months after collection. The user's data will be used for 26 months for analysis after which it will be deleted automatically by Google.

5.2 Google Admob

The free applications created, designed and published by Meester Dennis make use of Google's service Admob. Using this service, personal advertisements can be shown in the application. Google uses the user's personal data for finding advertisements applicable to the user. Meester Dennis has no influence on this. More general information and explanation about Admob is shown here: (<https://support.google.com/admob/answer/48182>). It is also possible for a user to change advertisement settings: (<https://adssettings.google.com/authenticated>). Changing general privacy settings in Google is possible by investigation of the following link: <https://privacy.google.com/intl/nl/safer-internet.html>

6. Right to access, change or delete data

Conform the European General Data Protection Regulation the user has rights to access, change, correct and to delete personal data collected by Meester Dennis. The user must send an email to Meester Dennis to start the procedure explaining the problems experienced and what should be done. Before Meester Dennis will change anything, the user is obliged to confirm its identity. Meester Dennis therefore requests the user to send a copy of their ID card or passport to Meester Dennis. The user may remove or colour black their citizen service number (in Dutch: Burgerservicenummer), machine readable zone (MRZ), passport number and photograph. This should be done to prevent illegal use of the user's property, either by third parties, email hosts or other entities. Meester Dennis shall contact the user as soon as possible, but at least within 20 working days.

The personal data collected by Google on behalf of Meester Dennis can be reviewed and delete using the user's Google account. The user's data can be found on (<https://takeout.google.com>) and other setting scan be changed as well, see chapter 5 for more information.

7. Visual overview data collection by Meester Dennis

Attachment 1 contains a schematic overview of the data collected by Meester Dennis, the responsible actors involved and the efforts Meester Dennis has taken to reduce this as much as possible.

8. Copyright

All images, texts, applications and recorded voices are owned by Dennis van Duin and may not be used by other individuals. These properties are protected by Dutch copyright laws as adopted on September 23, 1912 and renewed on July 1, 2015. For more information for the Dutch version of the law, see <http://wetten.overheid.nl/BWBR0001886/2015-07-01>.

8.1

Copyright on images

All images created, designed and published by Meester Dennis may never be used without written permission by Dennis van Duin himself. Every image was designed and created by Meester Dennis. In case the user experiences problems with any image published by Meester Dennis, or finds the image was not originally created by Meester Dennis, the user should contact Meester Dennis using the contact form. Together with the user, a decision shall be made and if appropriate, the image will be changed or removed.

8.2 Copyright on music

Any music or sound effects used by Meester Dennis in its applications is obtain from

<https://www.freesound.org/> or <http://www.freesfx.co.uk/>. Meester Dennis solely makes use of music files which have been marked as free on the moment they have been downloaded. In case the user experiences nuisances with certain files or knows or has found out the files are not free any more, the user must contact Meester Dennis using the contact form.

Voice recordings have been recorded by family members or colleagues are exclusively for use in applications made by Meester Dennis and may never be copied or used for anything.

For certain projects, applications or website, Meester Dennis hires musicians who will, on behalf of Meester Dennis, create and publish music files. Meester Dennis will purchase the copyrights from the original creator, such that Meester Dennis fully owns the music files.

8.3 Copyrights on applications and digibord tools

Applications, design, names and ideas in applications created, designed and published by Meester Dennis may not be copied. This holds at the same time for digibord tools which are usable on the website of Meester Dennis.

9. Disclaimer

Although the content of www.dennisvanduyn.nl (and aliases) and the privacy policy have been designed with the greatest care, neither texts nor images can be used to derive rights from them. Meester Dennis is not liable for any consequences based on the information provided.
